

# The ltx4yt Package

## Playing YouTube videos in a browser using links

D. P. Story

July 30, 2020

**Favorites to play:** Itemized links below use the `\ytvId` and `\ytvId*` commands, the only `*` command is “Kung-Fu Fighting\* (Original),” this one is played with advertisements and related/unrelated content. The links in this document should work across all PDF viewers and across all devices.

- **Kung-Fu Fighting (Bruce Lee)**
- **Kung-Fu Fighting\* (Original)**
- **TegrityGuy**
- **Open at Adobe**
- **Digital Signature in 9.0 Pro**
- **Lori’s Corner: Episode #1**
- **Intro to PDF Portfolios**

What follows are customized links created by `\ytLink`.

Lori’s Corner: Episode #1 (`\watchId` and `\params`)

Lori’s Corner: Episode #1 (`\embedId` and `\params`)

Search for Adobe Acrobat DC (`\embed` custom search)

Totally custom search link (surprise topic)

The RocketJump Channel (`\channel`)

Freddie Diew’s channel (`\user`)

A playlist of three videos

**PDF viewers:** Acrobat, Acrobat Reader DC, PDFX-Change, SumatraPDF, evince, TeXworks

**Browsers:** Microsoft Edge, Firefox, Google Chrome

**Devices:** Android smart phones, iPhones, Android tablets
