

# Formatting documents in APA style (6th Edition) with the apa6 L<sup>A</sup>T<sub>E</sub>X class

Brian D. Beitzel<sup>†</sup>

Released 2011/11/28

## **Abstract**

The *Publication Manual* of the American Psychological Association is

- |           |                                                                                                                   |
|-----------|-------------------------------------------------------------------------------------------------------------------|
| notxfonts | • notxfonts: In j ou mode, prevents txfonts from loading, in case pslatex or times is preferable for some reason. |
| notimes   | • notimes: In j ou mode, cancels loading txfonts or pslatex or times and usen Computer Modern instead.            |
|           | • notab: In j ou notab                                                                                            |

For multiple affiliations, follow these formats:

`\twoaffiliations{Affil. of 1st Author(s)}{Affil. 2nd Author(s)}`

`\threeaffiliations{U of A}{U of B}{U of C}`

`\fouraffiliations{My Company}{Your Department}{Heaven}{Earth}`

`\fiveaffiliations{...}{...}{...}{...}{...}`

`\sixaffiliations{...}{...}{...}{...}{...}{...}`

- `\abstract{ abstract-text }`

### **5.3 Author Note**

According to 6th Edition guidelines, Author Notes are placed on the title page of manuscripts.

## **6 New features**

In addition to providing compatibility with the 6th Edition of the *Manual*, several new features have been implemented beyond those available in the `apa` class.

### **6.1 Masked References**

Be warned

### 6.5.2 apacite

The apacite package is loaded if the apaci te
