

Tests

- Placing the number in long equations eq. (1)

$$\sum^a_{(1)}$$

- Having a unlabeled equation

$$a^2 + b^2 = c^2$$

- Having a labeled, but unreferenced equation

$$c$$

- Having a referenced equation with reference before eq. (2)

$$d \tag{2}$$

- Having a referenced equation with reference after

$$e \tag{3}$$

eq. (3)

- Printing the number without referencing

$$f \tag{4}$$

- Using cref

$$g \tag{5}$$

eq. (5)
