

The chem-biochem bibliography style for biblatex*

Joseph Wright[†]

Released 2011/08/17

This package provides a style for **biblatex** which follows the guidelines of the American Chemical Society (1). The citation style is numeric and unsorted. The bibliography style follows the pattern of the layout used in the journal *Biochemistry*. The style should be loaded in the usual way

```
\usepackage[style=chem-biochem]{biblatex}
```

The References section of this document demonstrates the format generated by the package using the **biblatex-chem.bib** database of example records.
