

# The `chem-rsc` bibliography style for `biblatex`<sup>\*</sup>

Joseph Wright<sup>†</sup>

Released 2011/08/16

This package provides a style for `biblatex` which follows the guidelines of Royal Society of Chemistry. The citation style is numeric and unsorted. The bibliography style follows the pattern of the layout used in the journal *Chemical Communications*. The style should be loaded in the usual way

```
\usepackage[style=chem-rsc]{biblatex}
```

The References section of this document demonstrates the format generated by the package using the `biblatex-chem.bib` database of example citations.

- `doi`      The standard `doi` and `url` options for bibliographies are supported by `chem-rsc`, but as standard are set `false`.
- `articletitle`      The use of article titles varies between individual journals. The boolean option `articletitle` is available to control this behaviour, and is set `false` as standard.
- `chapertitle`      The option boolean `chapertitle` option is provided to allow flexibility for the inclusion of chapter titles for `inbook` and `incollection` entries. The standard setting leaves this option off.
- `pageranges`      The use of full page ranges varies between journals and indeed between different papers in individual journals. The `pageranges` boolean option is available to turn on and off printing of full page ranges, thus allowing printing of only the first page even when the database contains the full page range. This option is set `true` as standard.  
Suggestions for improvement and bug reports can be logged in the package issue database, found at <https://bitbucket.org/josephwright/biblatex-chem/issues>, or can be sent by e-mail to `joseph.wright@morningstar2.co.uk`.

## Change History

v1.0	v1.0d
General: First stable release . . . . .	1
v1.0a	
General: Format “ <i>et al.</i> ” in italics when using <code>chem-rsc</code> style . . . . .	1
v1.0b	
General: Require <code>biblatex</code> v1.1 . . . . .	1
Use new <code>maxbibnames</code> option such that bibliographies print all authors but citations use truncated lists when necessary . . . . .	1
v1.0c	
General: Add version history for stable releases . . . . .	1
