

Sectioning commands with critical notes

This file provides examples of using sectioning command with `eledmac`. The section titles are in the line numbering, and have critical and side notes.

We use the `\eledxxx` commands, each of them in their own `\pstart...\pend` group.

Page breaks are manually added before chapter with `\beforeeledchapter`.

Chapter 1

1 chapter

chapter

2 I use git to manage some packages. I would like to add a pre-commit hook,
3 to check if I have forgotten For now, I have a minimal pre-commit, which tests
4 only the blank spaces at ends of lines, but not the forgotten..
