1 Example of a keycommand : \Rule

```
\Rule[width=2em]{hello}:  ——hello——  
\Rule[thick=1pt,width=2em]{hello}:  ——hello——  
                                \Rule{hello}:  —hello—  
\Rule[thick=1pt,raise=1ex]{hello}:  —hello—
```

2 Example of a keycommand : \charfill

```
\charfill{$\star$}:  * * * * *  
  \charfill[sep=2]{$\star$}:  * * * * *  
\charfill[sep=.7]{\textasteriskcentered}:  * * * * *
```

3 Example of a keyenvironment : dblruled

```
\begin{dblruled}  
  test for dblruled key-environment\par  
  test for dblruled key-environment\par  
  test for dblruled key-environment  
\end{dblruled}  
  
|test for dblruled key-environment  
|test for dblruled key-environment  
|test for dblruled key-environment  
  
\begin{dblruled}[first=4pt,sep=2pt,second=.6pt,left=.2em]  
  test for dblruled key-environment\par  
  test for dblruled key-environment\par  
  test for dblruled key-environment  
\end{dblruled}  
  
||test for dblruled key-environment  
||test for dblruled key-environment  
||test for dblruled key-environment
```
