

Formatting meeting minutes with the `meetingmins` L^AT_EX class*

Brian D. Beitzel[†]

Released 2011/10/28

Abstract

The `meetingmins` class formats written minutes of group meetings quickly, in a way that corresponds well with L^AT_EX document-writing conventions. Additional features of the `meetingmins` class include generation of an agenda for distribution prior to the meeting, the ability to suppress user-selected portions of the agenda, and a chair's agenda (to track meeting attendance).

1 Background

Many professionals are required to produce written minutes of group meetings. The `meetingmins` class provides an intuitive way to do this quickly, in a manner that corresponds well with standard L^AT_EX conventions. Specifically, each segment of the meeting (e.g., “Old Business”) is indicated with `\section` commands, rather than using `\begin` and `\end` environment commands like the `mins` class from which the `meetingmins` class was derived.

2 New Features

`\section`
`\subsection`
`\subsubsection`

The `meetingmins` class duplicates and extends the functionality provided by Jim Hefferon's `mins` class. As stated previously, the `meetingmins` class utilizes the `\section` commands (down to the level of `\subsubsection`) rather than using environments. Remembering to open and close an environment is not as intuitive, efficient, or convenient as invoking the `\section` commands that all L^AT_EX users are accustomed to. Additionally, in editors such as Emacs, syntax highlighting typically makes section names more salient than environment names, providing a clearer visual distinction of where the user is within the document while editing. Furthermore, environment titles must be typed twice (without typographical errors), whereas section titles are typed only once (and may be permitted the odd typo, as far as L^AT_EX is concerned). Perhaps most importantly, using the `\section`

[†]E-mail: brian@beitzel.com

commands allows the document to convey a hierarchical structure (which is the reason I undertook this project).

`\begin{items}` We cannot entirely escape the use of environments, however, because that
`\end{items}` is how numbered lists are created in L^AT_EX. Therefore, if numbered agenda
`\begin{subitems}` items are desired, one needs to begin the numbered list with `\begin{items}` and
`\end{subitems}` end it with `\end{items}`. For `\subsection` and `\subsubsection` sections, use
`\begin{subitems}` and `\end{subitems}`.¹

agenda By specifying **agenda** as an option in the `\documentclass` command, the doc-
 ument heading will read “Agenda for [date]” rather than “Minutes for [date]” and
 the group members will not be listed. This option is intended to help facilitate the
 dissemination of meeting agendas.

`\begin{hiddenitems}` There is one additional feature of the **agenda** option: numbered lists that
`\end{hiddenitems}` are bracketed by `\begin{hiddenitems}` and `\end{hiddenitems}` are suppressed
`\begin{hidensubitems}` from the printed agenda (`\begin{hidensubitems}` and `\end{hidensubitems}`
`\end{hidensubitems}` are also available). The purpose of this feature is primarily for announcements;
 why would they be sent out in advance for all to read and then re-announced at
 the meeting? Any portion of the agenda can be suppressed in this way if desired.
 Please note that there is no need to change the name of this environment when
 the final minutes are produced; in the absence of the **agenda** option, all text will
 be printed.

chair Specifying the **chair** option (instead of **agenda**) annotates the document as a
 “Chair’s Agenda for [date]”; in addition, the Chair’s Agenda lists the members’
 names along with handy checkboxes so the chair can more easily track attendance
 (and be reminded of who has not yet arrived.) Also, no text is hidden on the
 Chair’s Agenda. Just to be clear: Use either the **chair** *or* the **agenda** options,
 not both simultaneously.

3 Usage

Sample documents are included with this class; look in the “samples” subfolder of
 your installation. The source and output are reproduced on the following pages
 for quick reference.

¹This use of the `subitems` environment will remain a limitation until someone can show
 me how to capture the current section level for non-numbered sections. I have exhausted my
 capabilities in this pursuit.

3.6 Minutes (printed version)

Department of Instruction

Minutes for October 5, 2011

Present: B. Smart (Chair), B. Brave, D. Claire

Absent: B. Gone (*sabbatical*)

Also present: B. There

Announcements

1. The dean is coming today.
2. The dean has canceled.

Committee Reports

College-wide Committees

Library — The library still has books that no one has read.

Curriculum (D. Claire) —

1. There is widespread interest in reforming the curriculum.
2. Unfortunately, no one seems interested in participating on the curriculum reform committee.

Department Committees

Personnel — No one can have a raise this year.

Assistant Professor Search — We are looking for someone who will do a lot for very little money.

Old Business

1. The minutes of the previous meeting were approved.

New Business

1. We will teach classes next semester.
2. We will do research next semester.

Next Meeting: Wednesday, October 19, at 3:00
