## 1.1 First subsection

## 1.2 Second subsection

A small nice citation:

A bird cannot land once on a great tree and claim to know it. But I imagine that he would, yes.

Second section, starred

This is a starred section; you can test here variations on the `\mtcaddsection` command. Just uncomment one (and only one) of the `\mtcaddsection` commands after `\section*` in the source code of `add.tex`. For each case, look at the Table of Contents and at this section. I also added a lot of index entries, just to test.
