Chapter 1

Angels

Contents

1.1	Main equations	2
-----	--------------------------	---

1.1 Main equations

$$a = \frac{N}{A} \tag{1.1}$$

The equation $\sigma = ma$ follows easily.

Nomenclature

σ	The total mass of angels per unit area
A	The area of the needle point
a	The number of angels per unit area
i	The imaginary unit
m	The mass of one angel
N	The number of angels per needle point

Chapter 2

Demons

Contents

2.1	False equations	4
-----	---------------------------	---

2.1 False equations

$$i = \sqrt{-1} \tag{2.1}$$
