

hu-berlin-bundle

Documents and Documentations for \LaTeX at the
Humboldt-Universität zu Berlin (unofficial)

»Documentation must be regarded as an integral part of the process of design and coding. A good programming language will encourage and assist the programmer to write clear, self-documenting code, and even perhaps to develop and display a pleasant style of writing.«
[2, p. 195]

8.1	From .tex—43
8.2	From .md—45

1 Introduction

With this (unofficial) bundle you have several documents which are designed according to the corporate design of the Humboldt-Universität zu Berlin.

Following documents or documentclasses are available:

- letter (hu-berlin-letter.cls); via .tex and .md
- base package (hu-berlin-base.sty)

1.1 Installation of the bundle

hu-berlin is part of the distributions [MiKTeX](#) and [TeXLive](#) – thus, you can easily install it using the respective package manager. If you would like to install hu-berlin-bundle into your local folder manually, do the following: Go to your terminal, browse to the folder of this bundle and run

```
make install
```

If you are using macOS you might be asked for your user account password for the installation.

Further options of this makefile are:

- clean: deletes all unnecessary files
- cleanbundle: deletes all files except .dtx, .md. You will get the plain version of this bundle. This might be helpful if you send the bundle to someone else.
- ctan: this will create a zip file which can be used to send to CTAN.
- files: will only create the files from the .dtx-scratch.
- uninstall: will erase the locally installed files.

This bundle is constantly updated. For hints, errors or suggestions use the GitHub repository <https://github.com/LukasCBossert/hu-berlin-bundle>.

1.2 Changelog

All notable changes to this project will be documented in the [README.md](#). This project **does not** adhere to [Semantic Versioning](#). The markdown syntax is inspired by the conventions proposed by [keepachangelog.com](#).

1.2.1 v1.0.9 (2021/01/10)

- (letter) making everything multi-lingual (at least German and English); German is default language. You can load English e.g. by `\documentclass[english]{hu-berlin-letter}` (addresses [issue No. 3](#))

1.2.2 v1.0.8 (2020/10/30)

- (letter) replacing actual logo with a dummy text (due to possible copyright conflicts). The correct logo has to be called `hu-berlin-logo.pdf` and needs to be put somewhere

in PATH so it will be found. If such file cannot be found a dummy text will be taken instead ('Humboldt-Universität zu Berlin')

1.2.3 v1.0.7 (2020/10/29)

- (letter) fixed missing \removerefields
- (letter) added missing suffix for hu-logo (.pdf)

1.2.4 v1.0.6 (2020-10-22)

- (letter) changed address separator
- (letter) fixed empty minipage when no metadata given
- (letter) changed default backaddress

1.2.5 v1.0.5 (2020-04-28)

- (general) Changed logo format to .pdf
- (letter) Changed \ifkomavareempty to \ifkomavareempty, fixes github-issue nr. 1

1.2.6 v1.0.4 (2019-12-19)

- Added hu-berlin-base.sty as a package which contains all relevant code for documents and documentclasses of the bundle.

1.2.7 v1.0.3 (2019-06-26)

- Changed the main font for compatibility with UNIX-systems (TeX Gyre Heros instead of Verdana).

1.2.8 v1.0.2 (2019-06-22)

Renaming files for CTAN compatibility.

1.2.9 v1.0.1 (2019-06-21)

Internal changes for publishing. Still one documentclass for a letter.

1.2.10 v1.0.0 (2019-06-21)

First release with a documentclass for letter.

1.3 Copyright

Various parts of this bundle have different copyrights. If not otherwise stated the copyright is [The LaTeX project public license \(LPPL\), version 1.3c](#)

1.3.1 Boilerplate / markdown-template

The template for the markdown conversion, forked from the pandoc-templates and [JensErat](#) [pandoc-scrlltr2](#) is dual-licensed, under both the GPL (v2 or higher, same as pandoc) and the BSD 3-clause license (included below).

2 Preambel

This bundle consists of various files which are either generated by the core file (`.dtx`) or are part of the basic structure of this bundle. You can easily pick up the basic file structure from [fig. 2.1](#).

```
hu-berlin-bundle
├── hu-berlin-bundle.dtx ..... code and documentation
├── hu-berlin-bundle.pdf ..... documentation
├── hu-berlin-base.sty ..... basic components of the bundle
├── hu-berlin-letter-example-lualatex.tex ..... letter
├── hu-berlin-letter-example.lco ..... datafile for letter
├── hu-berlin-letter-example-lualatex.pdf ..... letter
├── hu-berlin-letter-example-markdown.pdf ..... converted letter from markdown
├── hu-berlin-letter-example-markdown.md ..... example markdown file
├── hu-berlin-letter-template.latex ..... template for conversion
└── img ..... folder for images
    └── texografie-logo.pdf ..... logo of maintainer
makefile ..... makefile to generate all required files
README.md ..... README file with information on installation
```

Figure 2.1: Structure of `hu-berlin` bundle

When you run the `makefile` you get all these various files described above.

Guideline for Users

```
1 (*example)
```

3 Letter

We give an example on how to create a letter.

3.1 .lco-file

```
2 (*lco)
```

This is the file you load into your `.tex` letter. The information you provide here do normally not change from letter to letter. That's why we put it in a separate file.

The first line should provide this information.

```
3 \ProvidesFile{hu-berlin-letter-example.lco}
```

Now we set up the personal data.

We start with the name of the sender.

```
4 \setkomavar{fromname}
```

you can also write the position of this person in brackets, this is optional; `[<position>]`

```
5 [Wissenschaftlicher Mitarbeiter]
```

But you need to give a name:

```
6 {Dr. Max Mustermann}
```

The mail address

```
7 \setkomavar{fromemail}{max.mustermann@hu-berlin.de}
```

For phone and fax number you only need to type the last digits.

```
8 \setkomavar{fromphone}{1234}
```

If you don't have a fax (or a phone), leave it empty. Do *not* delete it.

```
9 \setkomavar{fromfax}{5678}
```

And finally the URL.

```
10 \setkomavar{fromurl}{www.hu-berlin.de}
```

If your backaddress is to long – it will be set up automatically – you can redefine it.

```
11 %% \setkomavar{backaddress}{HU Berlin\\}
```

```
12 %% Unter den Linden 6\\
```

```
13 %% D-10099 Berlin}
```

Selfexplaining: the faculty.

```
14 \setkomavar{faculty}{%
```

```
15 Philosophische Fakultät
```

```
16 }
```

```
17 \setkomavar{institute}{%
```

```

18 \mbox{Institut für Briefvorlagen}
19 }

20 \setkomavar{institute.additional}{Here you can add more text.}

21 \setkomavar{institute.head}{Dekanin}{Prof. Dr. Maike Musterfrau}

22 \setkomavar{institute.head.mail}{maike.musterfrau@hu-berlin.de}

23 \setkomavar{office}{%
24   Mohrenstraße 40/41\\
25   Zimmer X\\
26   D-10117 Berlin}

27 \setkomavar{connections}{U Bahnhof Hausvogteiplatz (U2)}

28 \setkomavar{accessibility}{Hausvogteiplatz}

29 \setkomavar{signature}{%
30   \usekomavar{institute.head} --
31   \usekomavar{fromname}
32 }

33 </lco>

```

Example 1

```

1 \ProvidesFile{hu-berlin-letter-example.lco}
2 \setkomavar{fromname}
3   [Wissenschaftlicher Mitarbeiter]
4   {Dr. Max Mustermann}
5 \setkomavar{fromemail}{max.mustermann@hu-berlin.de}
6 \setkomavar{fromphone}{1234}
7 \setkomavar{fromfax}{5678}
8 \setkomavar{fromurl}{www.hu-berlin.de}
9 %% \setkomavar{backaddress}{HU Berlin\\
10 %% Unter den Linden 6\\
11 %% D-10099 Berlin}
12 \setkomavar{faculty}{%
13 Philosophische Fakultät
14 }
15 \setkomavar{institute}{%
16   \mbox{Institut für Briefvorlagen}
17 }
18 \setkomavar{institute.additional}{Here you can add more text.}
19 \setkomavar{institute.head}{Dekanin}{Prof. Dr. Maike
  Musterfrau}
20 \setkomavar{institute.head.mail}{maike.musterfrau@hu-berlin.de}
21 \setkomavar{office}{%
22   Mohrenstraße 40/41\\
23   Zimmer X\\
24   D-10117 Berlin}
25 \setkomavar{connections}{U Bahnhof Hausvogteiplatz (U2)}
26 \setkomavar{accessibility}{Hausvogteiplatz}
27 \setkomavar{signature}{%
28   \usekomavar{institute.head} --
29   \usekomavar{fromname}}

```

```
30 }
31 %%
```

3.2 .tex-file

```
34 (*letter)
35 \documentclass{hu-berlin-letter}
```

Now we load the personal data-file which has the ending .lco.

```
36 \LoadLetterOption{hu-berlin-letter-example}
```

If you have the HU font installed on your computer, you can load it, too:

```
37 % \setmainfont[%]
38 %   BoldFont=ScalaSans-BoldLF,
39 %   Numbers=OldStyle]{ScalaSans-RegularLF}
```

Now following the reference information

```
40 \setkomavar{myref}{}
41 \setkomavar{yourref}{}
42 \setkomavar{yourmail}{}
43 \setkomavar{customer}{}
44 \setkomavar{invoice}{}
45 \setkomavar{subject}{Betreff}
46 \usepackage{blindtext}
```

We close the preamble and start the letter

```
47 \begin{document}
```

The address is written as {<address>}

```
48 \begin{letter} {%
49   Erika Musterfrau\par
50   Musterweg 43\par
51   56789 Musterhausen%}
```

Closing now again.

```
52 }
53 \opening{Sehr geehrte Frau Musterfrau, }
```

This is just some blindtext.

```
54 \blindtext[2]
55 \clearpage
56 \blindtext
```

Closing letter

```
57 \closing{Mit freundlichen Grüßen}
```

If you still have something to say/write.

```
58 \ps PS: \dots
```

Any amendment.

```
59 \encl{%
60   Anlage 1\\
61   Anlage 2%
62 }
```

This is the distribution

```
63 \cc{%
64   Verteiler 1\\
65   Verteiler 2%
66 }
```

That's it. Done.

```
67 \end{letter}
68 \end{document}
```

And how does a example letter looks like?

Example 2

```
1 \documentclass{hu-berlin-letter}
2 \LoadLetterOption{hu-berlin-letter-example}
3 \setkomavar{myref}{}
4 \setkomavar{yourref}{}
5 \setkomavar{yourmail}{}
6 \setkomavar{customer}{}
7 \setkomavar{invoice}{}
8 \setkomavar{subject}{Betreff}
9 \usepackage{blindtext}
10 \begin{document}
11 \begin{letter}%
12   Erika Musterfrau\par
13   Musterweg 43\par
14   56789 Musterhausen%
15 }
16 \opening{Sehr geehrte Frau Musterfrau,}
17 \blindtext[2]
18 \clearpage
19 \blindtext
20 \closing{Mit freundlichen Grüßen}
21 \ps PS: \dots
22 \encl{%
23   Anlage 1\\
24   Anlage 2%
25 }
26 \cc{%
27   Verteiler 1\\
28   Verteiler 2%
29 }
30 \end{letter}
31 \end{document}
```

69 ⟨/letter⟩

3.3 Letter from markdown

70 (*letter-md)

You need to have pandoc installed on your computer. To create letters via markdown and pandoc run from the command line:

! pandoc –pdf-engine=luatex –template hu-berlin-letter-template.latex -o YOUR-FILE.pdf YOUR-FILE.md

The .md file needs a section with metadata.

It starts and ends with three ---. All necessary metadata information are listed inbetween.

71 ---

72 documentclass: hu-berlin-letter

The following will load the .lco-file, you replace that with the name of your .lco-file.

73 sender: hu-berlin-letter-example

You should also tell a short subject

74 subject: Short description

The information for the addressee has to be written like this:

75 addressee:

76 - Alexander von Humboldt

77 - Unter den Linden 6

78 - 10099 Berlin

79 ---

You find a list with possible options for this metadata information header below.

Now the content of your letter

80 Thank you very much for your letter.

Let's see how this example file looks like:

Example 3

```

1 ---
2 documentclass: hu-berlin-letter
3 sender: hu-berlin-letter-example
4 subject: Short description
5 addressee:
6 - Alexander von Humboldt
7 - Unter den Linden 6
8 - 10099 Berlin
9 ---
10 Thank you very much for your letter.

```

81 ⟨/letter-md⟩

Here we close the example files.

82 ⟨/example⟩

Guide for Coders

```
1 (*sty)
```

4 hu-berlin-base-package

```
2 (*base)
```

Since we do want to compile with Lua^ATEX, we make sure that it will be compilable only with that.

```
3 \RequirePackage{ifluatex, luatex85}
```

Now a fix.¹

```
4 \ifx\directlua\relax
5   \let\directlua\UnDeFiNeD
6 \fi

7 \ifluatex
8 \else
9 \GenericError{hu-berlin}%
10 {Please use 'LuaLaTeX' as Compiler.^^J I abort here.}
11 \fi
```

We do not need many packages. The ones we need are loaded now.

```
12 \RequirePackage[english, ngerman]{babel}
```

Common package for handling figures is **graphicx** [7].

```
13 \RequirePackage{graphicx}
```

For loading fonts.

```
14 \RequirePackage{fontspec}
```

Actually the corporate design says that the font Verdana should be used. But since this font is not included in UNIX-systems we use a derivative.

```
15 \setmainfont{TeX Gyre Heros}
```

If you have Verdana on your system you can uncomment the following line.

```
16 % \setmainfont{Verdana}
```

For the wheelchair symbol we load **marvosym** [9]

```
17 \RequirePackage{marvosym}
```

And we define various colors from the corporate design manual.

```
18 \RequirePackage{xcolor}
19 \definecolor{hu-berlin-blue}{RGB}{0, 65, 137}
20 \definecolor{hu-berlin-green}{RGB}{150, 190, 20}
21 \definecolor{hu-berlin-grey}{RGB}{169, 169, 169}
22 \definecolor{hu-berlin-brown}{RGB}{82, 79, 60}
```

¹ <https://tex.stackexchange.com/a/75065>

```
23 \definecolor{hu-berlin-red}{RGB}{180, 0, 0}
```

That's all for the base package, so we close it.

```
24 
```

```
25 
```

```
26 
```

5 Letter

```
27 
```

We load **scrlttr2** [4] which is the documentclass for letters. Furthermore we set up some options. The default language is German. But all strings are also available for English. You can load English as option to the documentclass.

```
28 \DeclareOption*{\PassOptionsToClass{\CurrentOption}{scrlttr2}}
```

```
29 \DeclareOption{english}{\PassOptionsToPackage{ngerman, main=english}{babel}}
```

```
30 \DeclareOption{ngerman}{\PassOptionsToPackage{ngerman}{babel}}
```

```
31 \ExecuteOptions{ngerman}
```

```
32 \ProcessOptions\relax
```

Now the documentclass itself.

```
33 \LoadClass[%
```

```
34   fontsize=10pt,
```

```
35   version=last,
```

If there is anything to debug, you can enable `visualize`

```
36   % visualize
```

```
37 ] {scrlttr2}
```

For debugging also uncomment the `\showfields{<fields>}` command.

```
38 % \showfields{head, address, location, refline, foot}
```

Since all common and basic features of the bundle are located in a separate package we load that first.

```
39 \RequirePackage{hu-berlin-base}
```

To get the HU logo on the second and following pages we load **scrlayer-scrpage** [3].¹

```
40 \RequirePackage{scrlayer-scrpage}
```

```
41 \clearpairofpagestyles
```

```
42 \DeclareNewLayer[
```

```
43   foreground,
```

```
44   voffset=\useplength{firstheadvpos},
```

```
45   hoffset=\useplength{firstheadhpos},
```

¹ <https://tex.stackexchange.com/a/495258/98739>

```

46 width=\useplength{firstheadwidth},
47 mode=picture,
48 contents=\putUL{\raisebox{-\height}{\usekomavar{firsthead}}}
49 ] {likefirstpage.head}
50 \AddLayersToPageStyle{scrheadings}{likefirstpage.head}
51 \DeclareNewLayer[
52 foreground,
53 align=r,
54 voffset=\useplength{locvpos},
55 hoffset=\paperwidth-\useplength{lochpos},
56 width=\useplength{locwidth},
57 height=\useplength{locheight},
58 contents=\usekomavar{nextlocation},
59 %pretocontents=\layercontentsmeasure% to show the position of the layer
60 ] {likefirstpage.loc}
61 \AddLayersToPageStyle{scrheadings}{likefirstpage.head, likefirstpage.loc}

```

Now we apply the code for following pages.

```

62 \newkomavar{nextlocation}
63 \setkomavar{nextlocation}{%
64   \raggedright
65   \ fontsize{7}{8.5}\selectfont
66   \pagemark
67 }

```

For better adjustments of the layout we load **geometry** [1].

```

68 \RequirePackage{geometry}
69 \geometry{%
70   a4paper
71   , left           =25mm
72   , bottom          =16mm
73   , foot            =4mm
74   , top             =77mm
75   , headheight      =15pt
76   , textwidth        =117mm
77   , marginparsep     =0mm
78   , marginparwidth   =0mm
79 }

```

Main Text and signature should be **raggedright**.

```

80 \renewcommand*{\raggedsignature}{\raggedright}
81 \raggedright

```

We also want to put the enclosures at the bottom of the page.²

```

82 \def\stopletter{}
83 \let\enclold\encl
84 \renewcommand\encl[1]{\vskip0ptplus1fill\enclold{\#1}}

```

² <https://tex.stackexchange.com/questions/77991/put-the-encl-at-the-bottom-of-the-page-letter-cl>

We define new komavars and we make it for German and for English as well.

```
85 \providecaptionname{english}{\hubCCseparator}{Copy to}
86 \providecaptionname{english}{\hubEnclSeparator}{Attachment}
87 \providecaptionname{english}{\hubMyRef}{Reference:}
88 \providecaptionname{english}{\hubFromName}{Clerk:}
89 \providecaptionname{english}{\hubDate}{Date:}
90 \providecaptionname{english}{\hubAddress}{Postal address:}
91 \providecaptionname{english}{\hubConnections}{Public transport:}
92 \providecaptionname{english}{\hubOffice}{Office:}
93 \providecaptionname{english}{\hubBank}{Bank:}
94 \providecaptionname{english}{\hubOfficeHours}{Consultation hours:}
95 \providecaptionname{english}{\hubAccessibility}{Entrance:}
```

Now for German.

```
96 \providecaptionname{n german}{\hubCCseparator}{Kopie an}
97 \providecaptionname{n german}{\hubEnclSeparator}{Anlage}
98 \providecaptionname{n german}{\hubMyRef}{Geschäftszeichen:}
99 \providecaptionname{n german}{\hubFromName}{Bearbeiter:}
100 \providecaptionname{n german}{\hubDate}{Datum:}
101 \providecaptionname{n german}{\hubAddress}{Postanschrift:}
102 \providecaptionname{n german}{\hubConnections}{Verkehrsverbindungen:}
103 \providecaptionname{n german}{\hubOffice}{Sitz:}
104 \providecaptionname{n german}{\hubBank}{Bank:}
105 \providecaptionname{n german}{\hubOfficeHours}{Sprechzeiten:}
106 \providecaptionname{n german}{\hubAccessibility}{Eingang:}
```

First the possibility to name the faculty,

```
107 \newkomavar{faculty}
108 \newkomafont{faculty}{\bfseries\fontsize{8.5}{10}\selectfont}
```

then the institute

```
109 \newkomavar{institute}
110 \newkomafont{institute}{\fontsize{8.5}{10}\selectfont}
```

and further fields for information.

```
111 \newkomavar{institute.additional}
```

We pass the name of the head of the institute.

```
112 \newkomafont{institute.head}{\bfseries}
113 \newkomavar{institute.head} %
```

Its position will be written as the optional argument.

There is even the possibility to print the email-address onto the letter.

```
114 \newkomavar{institute.head.mail} %
```

Since there are many buildings with offices we tell where to find the sender

```
115 \newkomavar{office}
116 \setkomavar*{office}{\hubOffice}
```

and how to get there.

```
117 \newkomavar{connections}
```

```
118 \setkomavar*{connections}{\hubConnections}
```

Furthermore we inform about office hours

```
119 \newkomavar{officehours}
120 \setkomavar*{officehours}{\hubOfficeHours}
```

and if there is accessibility for wheelchairs etc.

```
121 \newkomavar{accessibility}
122 \setkomavar*{accessibility}{{\large\reflectbox{\Wheelchair}}}\hubAccessibility
123 \newkomavar{bank}
124 \setkomavar*{bank}{\hubBank}
125 \setkomavar{bank}{Deutsche Bank PGK AG}
126 \newkomavar{IBAN}
127 \setkomavar{IBAN}{\mbox{IBAN DE95 1007 0848 0512 6206 01}}
128 \newkomavar{BIC}
129 \setkomavar{BIC}{BIC DEUTDEDB110}
```

Now we set the location field, which is the section on the right with additional information:

```
130 \setkomavar{location}{%
```

First anything regarding the font

```
131 \raggedright
132 \fontsize{7}{8.5}\selectfont
133 % \begin{macrocode}
134 % and for the section of faculty, institute etc. we use \env{minipage}
135 % \begin{macrocode}
136 \begin{minipage}[t][64mm]{\useplength{locwidth}}
```

then the faculty

```
137 \Ifkomavareempty{faculty}
```

This is a fake space to avoid any trouble if no custom metadata are given.

```
138 { \hspace*{1em} }
139 { \usekomafont{faculty}%
140 \usekomavar{faculty}\[1\baselineskip]}
```

and the institute.

```
141 \Ifkomavareempty{institute}
142 {}
143 { \usekomafont{institute}\usekomavar{institute}\[1\baselineskip]}
```

Now anything else regarding the institute.

```
144 \Ifkomavareempty{institute.additional}
145 {}
146 { \usekomavar{institute.additional}\[1\baselineskip]}
```

What follows is the head of institute and its position name.

```
147 \Ifkomavareempty{institute.head}
148 {}
149 { \usekomafont{institute.head}%
150 \usekomavar{institute.head}\%
```

```
151 \usekomavar*{institute.head}
```

We close this section and the minipage.

```
152 \end{minipage}
```

Let's turn to further information.

For example date:

```
153 \textbf{\usekomavar*{date}}\\
154 \usekomavar{date}\par
```

and the sender of the letter.

```
155 \Ifkomavareempty{fromname}
156 {
157 {\textbf{\usekomavar*{fromname}}}\\
158 \usekomavar{fromname}\par}
```

And the reference of correspondence.

```
159 \Ifkomavareempty{myref}
160 {
161 {\textbf{\usekomavar*{myref}}}\\
162 \usekomavar{myref}\par}
```

To complete this template we provide the possibility to name further reference fields.

```
163 \Ifkomavareempty{yourref}
164 {
165 {\textbf{\usekomavar*{yourref}}}\\
166 \usekomavar{yourref}\par}

167 \Ifkomavareempty{yourmail}
168 {
169 {\textbf{\usekomavar*{yourmail}}}\\
170 \usekomavar{yourmail}\par}
```

```
171 \Ifkomavareempty{customer}
172 {
173 {\textbf{\usekomavar*{customer}}}\\
174 \usekomavar{customer}\par}
```

```
175 \Ifkomavareempty{invoice}
176 {
177 {\textbf{\usekomavar*{invoice}}}\\
178 \usekomavar{invoice}\par}
```

```
179 \textbf{\usekomavar*{fromaddress}}\\
180 \usekomavar{fromaddress}
181 \Ifkomavareempty{fromphone}
182 {\par}
183 {\\\usekomavar*{fromphone}\usekomavar{fromphone}}
184 \Ifkomavareempty{fromfax}
185 {\par}
186 {\\\}}
```

```

187 \Ifkomavareempty{fromfax}
188   {}
189   {\usekomavar*{fromfax}\usekomavar{fromfax}\par}

```

Next, emails and url:

```

190 \Ifkomavareempty{institute.head.mail}
191   {}
192   {\usekomavar{institute.head.mail}
193   \Ifkomavareempty{fromemail}
194   {\Ifkomavareempty{fromurl}
195     {\par}
196     {\ \\
197     {\ \\
198 \Ifkomavareempty{fromemail}
199   {}
200   {\usekomavar{fromemail}
201   \Ifkomavareempty{fromurl}
202   {\par}
203   {\ \\
204 \Ifkomavareempty{fromurl}
205   {}
206   {\usekomavar{fromurl}\par}

```

Now the actual location of the sender

```

207 \Ifkomavareempty{office}
208   {}
209   {\textbf{\usekomavar*{office}}\\\
210   \usekomavar{office}\par}

```

The last information section should be pinned to the bottom.

```
211 \vfill
```

Inform your addressee about the connection possibilities.

```

212 \Ifkomavareempty{connections}
213   {}
214   {\textbf{\usekomavar*{connections}}\\\
215   \usekomavar{connections}\par}
216 \Ifkomavareempty{officehours}
217   {}
218   {\textbf{\usekomavar*{officehours}}\\\
219   \usekomavar{officehours}\par}

```

If there is a barrier free entrance, tell it.

```

220 \Ifkomavareempty{accessibility}
221   {}
222   {\textbf{\usekomavar*{accessibility}}\\\
223   \usekomavar{accessibility}\par}

```

And last the bank connection

```
224 \Ifkomavareempty{bank} { }
225   { }
226   {\textbf{\usekomavar*{bank}}}\ \
227   \usekomavar{bank}\ \
228   \usekomavar{IBAN}\ \
229   \usekomavar{BIC}
230 }
```

Finally we close `\setkomavar{<location>}`

```
231 }
```

To fulfill the Corporate Design rules we adjust a few things.

```
232 \KOMAoptions{%
233   numericaldate =true
234   ,refline        =nodate
235   ,backaddress    =plain
236   ,parskip        =half-
237 }
```

Getting rid of all other fields and their default position.

```
238 \removereffield
```

Redefining length.

```
239 \setplength{refvpos}{110mm}
240 \setplength{refaftervskip}{0pt}
241 \setplength{toaddrhpos}{25mm}
242 \setplength{firstheadhpos}{\useplength{toaddrhpos}}
243 \setplength{lochpos}{15mm}
244 \setplength{locvpos}{\useplength{toaddrvpos}}
245 \addtoplength{locvpos}{.75\baselineskip}
246 \setplength{locwidth}{45mm}
247 \setplength{locheight}{232mm}
```

Now resetting or pre-defining some variables.

First we set the head of the first page, which is the logo. Be sure that you have the right using it! Everything regarding the logo is defined in the corporate design guidelines.³ You need to have the actual logo of the Humboldt-Universität zu Berlin which has to be called `hu-berlin-logo.pdf`. It can be downloaded here: <http://zope.hu-berlin.de/hu-intern/design/downloads/logo> If this logo is not found a replacement text is shown instead.

```
248 \setkomavar{firsthead}{%
249 \IfFileExists{hu-berlin-logo.pdf}{%
250   {\includegraphics[width=145mm]{hu-berlin-logo.pdf}}%
251   {{\vspace*{2em}\hfil\scshape [humboldt-universität zu berlin]}}%}
252 }

253 \setkomavar{backaddresseparator}{~\textbar~}
```

³ <https://www.hu-berlin.de/de/hu-intern/design/basiselemente/leitfaden-corporate-design-hu.pdf>

```

254 \setkomavar{fromphone}{0000}
255 \setkomavar*{fromphone}{Telefon +49 [30] 2093-}

256 \setkomavar{fromfax}{0000}
257 \setkomavar*{fromfax}{Telefax +49 [30] 2093-}

258 \setkomavar*{fromaddress}{\hubAddress}
259 \setkomavar{fromaddress}{%
260   Humboldt-Universität zu Berlin\\
261   Unter den Linden 6\\
262   D-10099 Berlin}

```

The default backaddress is slightly changed:

```

263 \setkomavar{backaddress}{%
264   Humboldt-Universität zu Berlin\\
265   UdL 6\\
266   D-10099 Berlin}

267 \setkomavar*{date}{\hubDate}

268 \setkomavar*{fromname}{\hubFromName}

269 \setkomavar*{myref}{\hubMyRef}

270 \setkomavar*{enclseparator}{\hubEnclSeparator}

271 \setkomavar*{ccseparator}{\hubCCseparator}

272 % \RequirePackage{hyperref}
273 % \AtBeginDocument{%
274 %   \usekomavar[\def\author]{fromname}
275 %   \usekomavar[\def\subject]{subject}
276 %   \hypersetup{%

```

```
330 $if(closing) \$setkomavar{closing}{\$closing\$} \$endif$  
331 $if(firstfoot) \$setkomavar{firstfoot}{\$firstfoot\$} \$endif$
```

Ok, let's sum up the possible options you can use to pass data to the letter:

- addresseeimage
- backaddress
- customer
- date
- fromaddress
- frombank
- fromemail
- fromfax
- fromlogo
- frommobilephone
- fromname
- fromphone
- fromurl
- fromzipcode
- invoice
- location
- myref
- myrefname
- place
- PPcode
- signature
- specialmail
- subject
- title
- yourmail
- yourref
- opening
- closing
- firstfoot

Sometimes you might not have an addressee – we are checking this, too.

```
332 $if(addressee)$  
333 $else$  
334 \KOMAoptions{addrfield=false}  
335 $endif$
```

Now the actual content of the letter

```
336 \begin{document}  
337 \begin{letter}{}%  
338 $for(addressee)$  
339 $addressee$$sep$\\"  
340 $endfor$  
341 }  
342 $for(include-before)$
```

```

343 $include-before$  

344 $endfor$  

345 \opening{\usekomavar{opening}}  

346 $body$  

347 \closing{\usekomavar{closing}}  

348 $if(ps) \$ps\$\$endif$  

349 $if(encl) \$encl\$\$endif$  

350 $for(include-after) $$include-after\$endfor$  

351 \end{letter}  

352 \end{document}  

353 </letter-md>  

354 </template>

<p>[HUMBOLDT-UNIVERSITÄT ZU BERLIN]</p> <p>Humboldt-Universität zu Berlin Udl. 6 D-10099 Berlin</p> <p>Erika Musterfrau Musterweg 43 56789 Musterhausen</p> <p>Betreff</p> <p>Sehr geehrte Frau Musterfrau,</p> <p>Dies hier ist ein Blindtext zum Testen von Textausgaben. Wer diesen Text liest, ist selbst schuld. Der Text gibt lediglich den Grauwert der Schrift an. Ist das wirklich so? Ist es gleichgültig, ob ich schreibe: „Dies ist ein Blindtext“ oder „Huardest gefburn“? Kift – mitnichten! Ein Blindtext bietet mir wichtige Informationen. An ihm messe ich die Lesbarkeit einer Schrift, ihre Anmutung, wie harmonisch die Figuren zueinander stehen und prüfe, wie breit oder schmal sie läuft. Ein Blindtext sollte möglichst viele verschiedene Buchstaben enthalten und in der Originalsprache gesetzt sein. Er muss keinen Sinn ergeben, sollte aber lesbar sein. Fremdsprachige Texte wie „Lorem ipsum“ dienen nicht dem eigentlichen Zweck, da sie eine falsche Anmutung vermitteln.</p> <p>Philosophische Fakultät Institut für Briefvorlagen Here you can add more text. Wer diesen Text liest, ist selbst schuld. Der Text gibt lediglich den Grauwert der Schrift an. Ist das wirklich so? Ist es gleichgültig, ob ich schreibe: „Dies ist ein Blindtext“ oder „Huardest gefburn“? Kift – mitnichten! Ein Blindtext bietet mir wichtige Informationen. An ihm messe ich die Lesbarkeit einer Schrift, ihre Anmutung, wie harmonisch die Figuren zueinander stehen und prüfe, wie breit oder schmal sie läuft. Ein Blindtext sollte möglichst viele verschiedene Buchstaben enthalten und in der Originalsprache gesetzt sein. Er muss keinen Sinn ergeben, sollte aber lesbar sein. Fremdsprachige Texte wie „Lorem ipsum“ dienen nicht dem eigentlichen Zweck, da sie eine falsche Anmutung vermitteln.</p> <p>Mit freundlichen Grüßen</p> <p>Prof. Dr. Maike Musterfrau – Dr. Max Mustermann</p> <p>PS: ...</p> <p>Anlage: Anlage 1 Anlage 2 Kopie an: Verteiler 1 Verteiler 2</p>
