

**NAME**

`pooltype` – display a WEB pool file

**SYNOPSIS**

**pooltype** *pool\_file\_name*

**DESCRIPTION**

This manual page is not meant to be exhaustive. The complete documentation for this version of T<sub>E</sub>X can be found in the info file or manual *Web2C: A TeX implementation*.

The **pooltype** program translates a (program-oriented) WEB string pool file to a (human-oriented) text file.

The *pool\_file\_name* must be complete; no adding of default extensions or path searching is done.

**SEE ALSO**

**tangle**(1).

**AUTHORS**

Donald E. Knuth wrote the program and originally ported it to Unix. It was published as part of the *T<sub>E</sub>Xware* technical report, available from the T<sub>E</sub>X Users Group.
