

The XePersian Package

Source documentation for [version 21.6](#)

to my Master, Ferdowsi The Great

If you enjoy the `xepersian` package and want to support the project, then please consider donating to the project. It allows me to spend more time working on the `xepersian` package, encourages me to continue, and is the perfect way to say thank you!

If you reside outside Iran, you can use *My PayPal.Me* to donate to the `xepersian` package at

<https://www.paypal.me/persiantex>

If you have a problem using *My PayPal.Me*, then please email me at persian-tex@tug.org.

If you live in Iran, you can email me at persian-tex@tug.org and request my bank account details.

If you want to report any bugs or typos and corrections in the documentation, or ask for any new features, or suggest any improvements, then please do not send any direct email to me; I will not answer any direct email. Instead please use the issue tracker:

<https://sourceforge.net/p/persian-tex-dist/tickets>

In doing so, please always explain your issue well enough, and always include a minimal working example showing the issue.

Please note that most of my spare time is pretty much occupied by \TeX development and as a result, I am afraid that I can not help users on a regular basis. Therefore, I ask all users to not email me and ask for help. However, there is a Persian \TeX mailing list where everyone can discuss Persian \TeX related topics, ask and/or answer questions. This mailing list is the default media for Persian \TeX communications. I will try my best to answer questions on this mailing list whenever I have time. You can subscribe to the mailing list at

<http://tug.org/mailman/listinfo/persiantex>
