BG5CONV(1)

### **NAME**

bg5conv - convert a TeX document in Big 5 encoding into 'preprocessed' form.

## **SYNOPSIS**

**bg5conv** < *infile* > *outfile* 

#### **DESCRIPTION**

Big 5 encoding for traditional Chinese uses the characters  $\{, \}$ , and  $\setminus$  which have special meanings in TEX documents.

After processing a  $L^{A}T_{E}X 2_{\varepsilon}$  document which contains Big 5 characters with **bg5conv** you need not care about these special characters.

This filter is part of the CJK macro package for LATEX 2.

# **SEE ALSO**

**sjisconv**(1), **cefconv**(1), **cefsconv**(1), **cefsconv**(1), **extconv**(1), the **CJK** documentation files.
