

NAME

ebb – extract a bounding box from JPEG, PNG, and PDF files

SYNOPSIS

ebb [*-v* | *-b*] *graphic_file*

DESCRIPTION

ebb extracts the bounding box from JPEG, PNG, and PDF files (with lower- or uppercase extensions) and writes it into a file with the extension **.bb**, together with some header information. These files can then be used by **dvipdfm** or other programs.

OPTIONS

-v : be verbose

-b : Write .bb file in binary mode (has no effect on Linux and other systems conforming to POSIX).

AUTHOR

ebb was written by Mark A. Wicks.

This manual page was written by Frank Küster <frank@kuesterei.ch>, for the Debian GNU/Linux system. It may be used and modified by others without contacting the author. Any mistakes or omissions in the manual page are my fault; inquiries about or corrections to this manual page should be directed to me (and not to the primary author).
