## NAME

mktexlsr - create ls-R databases

# SYNOPSIS

**mktexlsr** [directories]

#### DESCRIPTION

This manual page is not meant to be exhaustive. The complete documentation for this version of  $T_EX$  can be found in the info file or manual *Kpathsea: A library for path searching*.

**mktexlsr** is used to generate the ls-R databases used by the kpathsea library. It will create them for the specified directories, or for a default list if no directories are specified.

### **OPTIONS**

**mktexlsr** accepts the following options:

--help Print help message and exit.

#### --version

Print version information and exit.
