

NAME

newer – compare file modification times

SYNOPSIS

newer [*option*] *src1* [*src2* ... *srcN*] *target*

DESCRIPTION

Exit successfully if files *src1* ... *srcN* exist and at least one of them is not older than *target*. Also exit successfully if *target* doesn't exist.

OPTIONS

newer accepts the following options:

--help Print help message and exit.

--quiet, -q
Do not print any output, including error messages.

--version
Print version information and exit.

--verbose, -v
List missing source files. This is the default.
