

**NAME**

texconfig – configures teTeX

texconfig-sys – configures teTeX system-wide

**SYNOPSIS**

**texconfig**

**texconfig-sys**

**DESCRIPTION**

*texconfig* allows to configure and maintain *teTeX* in an easy and convenient manner. It uses the *dialog* program to draw nice input boxes. After answering the dialogues, the appropriate files are changed automatically and all necessary steps are involved to apply the new settings.

**SEE ALSO**

*dialog*(1), *initex*(1), *mf*(1), *vi*(1), *EDITOR* environment-variable.
