

Testing the AeB and AeB Pro Installation

This file is used to test for proper installation of `aeb.js` and `aeb_pro.js`. After following the instructions of `js-files/install_jsfiles.pdf` of the `acrotex-js` distribution, test the installation by pressing the push buttons below.

To test the AeB installation, press this button:

To test the AeB Pro installation, press this button:

Congratulations if a successful installation is indicated.

On failure, did you close Acrobat before opening this file? (The JS files are only read once when the Acrobat application is opened.) When all else fails, try rereading the installation instructions again (`install_jsfiles.pdf`), found in the `docs` folder of the `acrotex-js` package, but more carefully this time.

Still failing? Do you have Acrobat DC? Perhaps your Acrobat needs to be configured. Try reading `acrobat-in-workflow.pdf`, found in the `docs` folder of the `acrotex-js` package.
