# Demonstrating the eq-save package No Gatekeeper commands present 

Herr Dr Prof Story

Answer some of the questions, save the document, then reopen it and continue the 'worksheet'. The tallies should continue from the values current at the time the document was saved.
It is well known that $1+16=$ $\qquad$
Quiz Solve each of the following without error.

1. Calculate: $8 \cdot 11=$
2. Enter the last name of the Herr Dr Prof of this course.

The Herr Dr Prof is
3. Which of the following is true
$\square$ true false
4. From the list below, select the mathematicians recognized as the originators of Calculus.
Newton
$\square$ GaussLeibniz

Begin Quiz Solve each without error.

1. Which of the following is true
$\square$ true
false
2. Calculate: $8 \cdot 11=$
3. From the list below, select the mathematicians recognized as the originators of Calculus.
$\square$ Newton
$\square$ Gauss $\square$ Leibniz
$\square$ Banach
End Quiz Score: $\quad$ Correct
$\square$ out of $\qquad$

The quiz on this page has points associated with each question, the points are tabulated separately, and entered into the fields in the right footer. The questions above are figured in as 1 point each.
Begin Quiz Solve each without error.

1. $\left(2^{\mathrm{pts}}\right)$ Which of the following is true
$\square$ true
false
2. $\left(3^{\mathrm{pts}}\right)$ Calculate: $8 \cdot 11=$
3. $\left(4^{\mathrm{pts}}\right)$ From the list below, select the mathematicians recognized as the originators of Calculus.

|  | $\square$ Newton $\quad \square$ Gauss |
| :--- | :--- | :--- |
| End Quiz | $\square$ Correct |

Clear All
